ATHESIS.

AIADVM vos pulchra manus, vos humida aquarum

Numina, qua vestris nostros augetis honores,

Has dum perpetuis cumulatis fontibus vndas,

Prompta quidem semper mandata capescere nostra, Et parere mihi, iubeam quacunque, parata; Pracipites alio undarum conuertite gressus, Vel primos celeri ad sontes reuocate recursu, Et nostros prisco latices educite ab alueo.

Illailla adriaca gentis generosa propago
Dotibus ingeny, morum probitate, lepore,
Forma, opibus, sama, sactisque ornata suorum,
Gnatorum sobole insignis, tantique Mariti
Laudibus Illustris, CORNELIA nomine CLARA

(Prob dolor) ad patrias nunc regressura Penates
Discessum accelerat gaudens, vbi pramia gestis
Digna suis referat, multoque ornetur honore;
Et mea selicem vt subito vebat vnda carinam

Mandat, & vt duro mihi pondere terga premantur. Ergone consuetos effundet vena liquores,

Tantorumé, erit ipfa modo mihi caufa malorum Ergo ministerio tam tristi inseruiet unda, Perpetua, vi surgant averso sole tenebra Et nigra obducant nostras velaminaripas? Haudequidem, sed quisque suos contendat adortus. Seque cauernosis terra penetralibus abdat: Turgidus aut largos fluvius tam crefcat ob imbres, Et circum resonent ingenti murmure fluctus; V t metat dubio corpus committere dorfo CLARA suum nostro, és tardet pauefact a recessium. Quidloquor infelix? pectus que vana volutat? Quod cupit, id se posse putat . num semita forsan Tutior in terris deerit, que subtrabat illam Vndarum imperio, tempestatumá, furoni? Quid faciam infelix, iufta si exardeat ira Servitio fraudata meo? si tædet amicam Decessuram adeo, quid si hinc inimica recedat? Defender valida obsequium que causa negatum, Si Pater Adriacus nostris succenseat ausis? Mens vbi consistit vantis agitata procellis? Eia age vincat amor, nec amate desit amicum Seruitium Domina, concedat nostra voluntas; Egregia fidei feruentis noscat amoris Signamei, granibus dum pareo inssibus istis. Temperet ergo suos insanos unda furores, Et lignum suauis pulsum demulceat aura, Molliane tristes turbent præcordia curæ Nec gelidum admittat facies formosa timorem,
